Address: 51, Sister Nibedita Road, Saradapally, Benachity, Durgapur, West Bengal-713213

Objective

Results-driven MCA student with strong foundations in Java, Python, JavaScript, full-stack development, and scalable system design. Demonstrated ability to deliver performance-optimized applications, accelerate feature delivery, and improve system efficiency through analytical problem-solving and rapid learning.

Education

Masters of Computer Application — Sept 2024 - June 2026

- **Kalinga Institute of Industrial Technology University** — *CGPA : 9.03/10.00*
- **Coursework :** Python, Java, SQL, OOPs, Data Analytics, NLP.

Bachelors of Computer Application — Aug 2020 - Aug 2023

- **Dr. B.C. Roy Engineering College** — *CGPA : 9.11/10.00*
- **Coursework :** Software Engineering, DBMS, Networking, C.

Experience

Full Stack Developer Intern — Jun 2022 - Sep 2022

WEBEL-FUJISOFT-VARA CoE — *Kolkata, West Bengal*

- Constructed RESTful APIs using Java microservices architecture, **reducing feature delivery time by 30%**.
- Optimized SQL query & caching, cutting **data retrieval time by 5%** and **improving page load speed by 20%**.
- Crafted client components with React and MUI, enhancing user engagement and **reducing bounce rate by 15%**.
- Enhanced backend architecture **to handle 3x more concurrent users** without performance degradation.

Projects

SwiftShare | Link | *SpringBoot, React, JavaScript, Clerk, Tailwind CSS, MongoDB, Git, Razorpay*

- Achieved **99.9% uptime, and 40% lower server load** through MongoDB indexing and Vite code-splitting.
- Deployed AES-256 encryption **for 500K+ users** and zero breaches with **¡0.1%** unauthorized access via Clerk.
- Achieved **94%** payment conversion (**+22%** over industry) and kept failures at **2.3%** through Razorpay integration.
- Delivered React UI with **95+ Lighthouse score**, **98.5% compatibility** via smart state management.

BudgetBee | Link | *SpringBoot, React, JavaScript, Brevo, Tailwind CSS, PostgreSQL, Git*

- Built a Spring Boot–React finance app for **100+ users** with JWT-secured APIs and **150 ms response time**.
- Optimized JPA/Hibernate queries, improving **throughput by 40%** across **1000+ daily transactions**.
- Handled email verification via Brevo SMTP with **98% success** and **5-minute token expiry**.
- Crafted a responsive React dashboard showing **5+ categories**, **cutting report time by 80%**.

Short.ly | Link | *Java, SpringBoot, React, Material UI, Tailwind CSS, PostgreSQL, Git, Postman*

- Engineered a URL shortening website with analytics, achieving **98% uptime and 60% URL compression**.
- Secured API access using JWT for stateless authentication and token validation.
- Integrated PostgreSQL for rapid data access, **enhancing response time by 40%** under concurrent loads.
- Developed a mobile-optimized UI, reducing page **load time by 35%** and improving Core Web Vitals scores.

Tech-Skills

- **Language** : Java, JavaScript(ES6+), PostgreSQL, MySQL, MongoDB, HTML5, CSS3.
- **Framework** : J2EE, Spring, SpringBoot, React.js, Redux, axios, Tailwind CSS, Hibernate.
- **Familiar With** : ORM, Git, GitHub, RESTful API, Docker, Ngrok, nginx, Clerk, Junit5, Mockito
- **Concepts** : OOPs, DSA, Databases, System Design, Microservices Architechture.

Soft-Skills

- Problem Solving
- Team Collaboration
- Critical Thinking
- Quick Learner

Certificates

- **AWS Academy Cloud Architecting** – Gained hands-on experience in AWS infrastructure and design.
- **Red Hat System Administration I** – Learned core Linux system administration and CLI operations.

Achievements

- **Awarded by WEBEL-FUJISOFT-VARA** for excellent performanmce thorughout Internship.
- **Participated in ESSPL-Technova** Hackathon, secured **3rd Runners up position.**
